A new Special Issue on Biomedical Imaging Technologies for IoT Devices Using Edge Computing has been launched in Applied and Computational Mathematics. This Special Issue intends to collect research achievements concerning Biomedical Imaging Technologies. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor: Mohamed Adel Hammad
Affiliation: Information Technology Department, Faculty of Computers and Information, Menoufia University, Menoufia, Egypt

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via http://www.acmath.org/submission

Topics of Interest Include (but not limited to):
- Biomedical Signal and Image Processing of IoT
- Biomedical imaging and pattern recognition
- IoT architecture, implementation and medical application using edge computing
- Machine learning/deep learning for biomedical imaging
- Biomedical data mining, data modelling and big-data analytics
- New Edge computing architecture for biomedical imaging

Important Dates
Submission Deadline: Jan. 10, 2020
Publication Deadline: Mar. 10, 2020

Join as Guest Editor
For scholars who have intention to join the special issue as guest editor, please check out the link below:
